

City of Norwalk

Social Media Sites

When an emergency or severe weather impacts the City, residents are reminded to visit official City websites or social media pages for information. Rumors and misinformation can spread quickly and going to the City's official website or pages can ensure you get the most accurate information.

Remember to always dial 9-1-1 in an emergency! Do not post requests for fire, police or medical help to social media pages.

The City uses Code Red for notifications. Residents and business owners can add their mobile numbers, unlisted numbers or VOIP numbers to a secure database to receive alerts and updates. <http://www.norwalkct.org/Faq.aspx?QID=249>
