

The Health Enhancement Program (HEP) is a component of the medical plan and has several important benefits. First, it helps you and your family work with your medical providers to get and stay healthy. Second, it saves you money on your healthcare. Third, it will save money for the Partnership Plan long term by focusing healthcare dollars on prevention.

*Health Enhancement Program Requirements*

You and your enrolled family members must get age-appropriate wellness exams, early diagnosis screenings (such as colorectal cancer screenings, Pap tests, mammograms, and vision exams). Here are the 2022 HEP Requirements:

*The Health Enhancement Program features an easy-to-use website to keep you up to date on your requirements.*

### *Additional Requirements for Those With Certain Conditions*

If you or any enrolled family member has 1) Diabetes (Type 1 or 2), 2) asthma or COPD, 3) heart disease/heart failure, 4) hyperlipidemia (high cholesterol), or 5) hypertension (high blood pressure), you and/or that family member will be required to participate in a disease education and counseling program for that particular condition. You will receive free office visits and reduced pharmacy copays for treatments related to your condition.

These particular conditions are targeted because they account for a large part of our total healthcare costs and have been shown to respond particularly well to education and counseling programs. By participating in these programs, affected employees and family members will be given additional resources to improve their health.

### *If You Do Not Comply with the requirements of HEP*

**If you or any enrolled dependent becomes non-compliant in HEP, your premiums will be \$100 per month higher and you will have an annual \$350 per individual (\$1,400 per family) in-network medical deductible.**
