Mayor Rilling Provides Local Update on Coronavirus

(Norwalk, Conn.) - City officials are working closely with partners at the state and federal levels, as well as partners in Norwalk, to monitor and respond to COVID-19, the 2019 novel Coronavirus. Statewide updates can be found online at ct.gov/coronavirus. Mayor Rilling provided the following Norwalk-area specific updates regarding COVID-19 coronavirus as of 5:30 p.m. on Tuesday, June 9, 2020:

- Since yesterday, there are three new positive cases in Norwalk, bringing the total positive reported cases to 2,048. There were no new deaths reported.
- Governor Lamont announced that he is ordering an independent, third-party review to be conducted of the preparation and response to the COVID-19 pandemic inside of Connecticut's nursing homes and assisted living facilities. More details can be found at ct.gov.
- The non-resident vehicle lot (located at Taylor Farm) reached the 50 vehicle capacity today and was closed for the remainder of the day. This was the first time this beach season non-resident parking capacity was met. Resident parking in the main lots remained open throughout the day. Parking capacity and status updates will be posted as-needed throughout the summer on the City of Norwalk [Facebook](#) (@CityofNorwalk) and [Twitter](#) (@Norwalk_CT) pages.
- To help accommodate expanded outdoor dining on Washington Street, the Norwalk Transit District has implemented detours for the Wheels 11 Bus and Main Avenue Shuttle. More details can be found at norwalktransit.com.
- The City and Norwalk Health Department created a survey in an effort to match residents who are seeking to help the community with local organizations in need of volunteers. Those interested can complete the Volunteer Survey by visiting bit.ly/norwalkvolunteer.

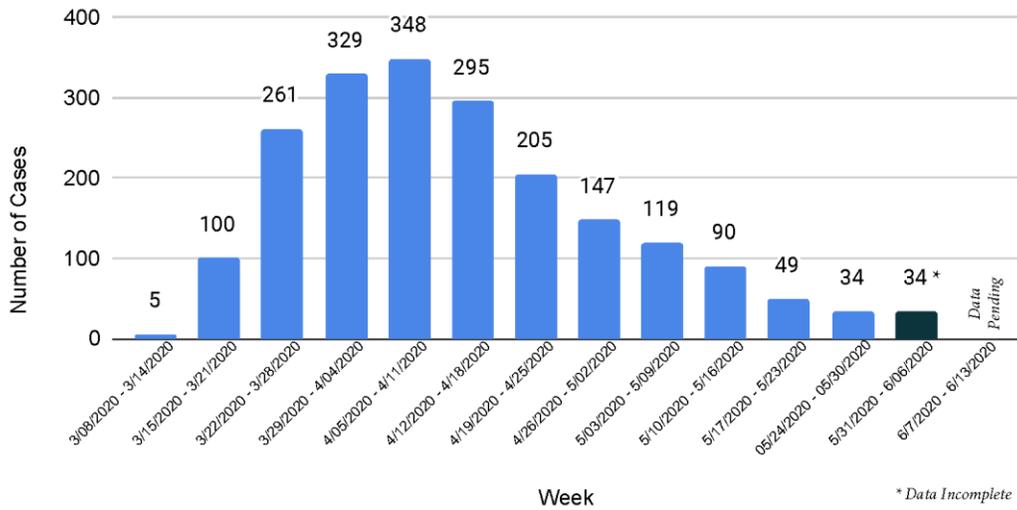

“We have implemented 50 percent parking capacity at the beach for resident parking in this initial phase of reopening, and those 500 spots have yet to be completely full. Today was the first day the 50 non-resident spots reached capacity. We have one of the best shorelines in the region and I think it's telling that people want to come to our beach and pay for parking even though swimming is prohibited and no amenities are currently available. We will continue to monitor the parking situation as the weather continues to warm in the weeks ahead,” Mayor Rilling said. “While the number of cases has thankfully slowed down that does not mean the need is any less great in Norwalk. There are nonprofit groups doing some amazing work, and could use a helping hand. If residents are willing and able, I ask they consider filling out the survey so we can help connect them with a local group seeking volunteers.”

Members of the public are encouraged to sign-up for the City's CodeRED Emergency Alert Notification System at norwalkct.org/codered. Updates on City services, hours, and community resources will be routinely published at norwalkct.org/citynews. The latest health updates can be found at norwalkct.org/coronavirus.
