Broderick,
I spoke to the architect regarding the below and he hasn't done the detailed drawings required for the actual building permit. He did indicate that the building will be sprinkled. We are just in the stage of getting P & Z approval. Once we have that we will then need to submit the detailed plans to building and you for approval to construct the building.
Thanks,

Al

Good afternoon,

I'll need more detailed drawings including the referenced code data before I can make any determination.

Thank you,

Broderick

Good Morning Broderick

Attached please find our special permit application, site plan, building plans and drainage reports for the Bridgeport Diocese's proposed office building to be constructed at 223 Richards Avenue—St. Johns cemetery property. Would you kindly review the same and get back to me with any comments or concerns as we are currently before the Planning and Zoning Commission.

Thanks,

Al
